Chairman Message

"Education is the most powerful weapon which you can use to change the world."

It is my great pleasure to extend a warm welcome to the Nanda Institute of Pharmaceutical Science & Technology Bahraich (UP), the college started in the year 2020 with a vision to achieve global excellence in field of pharmaceutical sciences and research

NIPST mission is to contribute to Indian society by being a world-class skills development leader in providing students with pharmaceutical career-related education, training and experience. Our Bachelor of pharmacy and Diploma of pharmacy curriculum is designed by the direction of intellectuals which helps the students to find better future in the field of pharmacy.

Our rigorous training, based on practical application of scientific principles, is the most efficient way to ensure competence and employability. Our unique style has produced well trained pharmacist who are highly skilled in many areas of pharmaceutical sciences.

The educators at NIPST are specialist who ingrain in our students the finer nuances of life and pave every single step of their ascent to a socially, morally, emotionally, spiritually and intellectually responsible citizenry.

The world has changed phenomenally since we started our journey. At NIPST we remain committed to give reinventing our curriculum, pedagogy, systems and practices to well prepare our students to adapt to this new world order.

Through the efforts of a dedicated and talented staffs, NIPST has established itself as a progressive and successor of specialized higher education in pharmaceutical sciences and technology and earned its current position as the premier institution in India. Our success serves further to fuel our ambition as we increase our service to society, locally and nationally.

The education system in India is going through rapid changes. The basic objective of education is not only to enhance knowledge but also to prepare our students for job-oriented which is demand of today hour.

As a Founder, I take this opportunity to invite you to join our institution were my mission is to ensure that in a safe tranquil, stimulating and intellectually challenging environment, all students shall have ample opportunity to identify and fulfil academic, cultural, sporting and social potential through multiple paths to learning.

Nanda Institute of Pharmaceutical Science & Technology was established with the motive of imparting extensive knowledge along with developing a lucrative skill-set among the students eventually helping them achieve ultimate success. We strongly believe in encouraging our team of both students and faculty to never limit their imagination for continuously contributing towards novel discoveries and innovations. We provide well equipped resources and infrastructure for visionary students to transform their ideas into plans and a well-read group of faculty for catalysing and supervising various methodologies and research projects.

I welcome all the young students and wish them all the very best for future endeavours and achieving success with flying colours!

We concentrate personally on student's moral uprightness, scientific insight and social commitment. NIPST is the best place where students can explore their career. I hope you will be one of those fortunate students who get an admission to our college and I assure you that, your life in this college will be academically fruitful and pleasant.

"Learning gives creativity, Creativity leads to thinking, Thinking provides knowledge, and Knowledge makes you great."

Technology has given rise to the demand of learning and further innovation in this field as a result of which it has become one of the most popular fields in education and career. You can find IT specialization in every branch of education, from IT & Software, Engineering, Aviation .

Career in the IT sector

India is considered the hub of IT education, with over 4000 institutes and colleges offering various courses at undergraduate, postgraduate, doctoral and certificate level. Besides, it is a known fact the almost all the top global IT companies have a sizeable number of Indian IT graduates working in various capacities. In fact, USA accounts for more than 60% of Indian IT professionals.

Information Technology courses are taught at both UG and PG degree level. Short-term courses like IT diploma and certifications are also offered by various institutions in India. Starting salary for an Information Technology graduate is Rs 4 lakh per annum at junior level. At senior level, salary packages offered to freshers are above Rs 7 lakh per annum.

Many people often confuse IT with Computer Science Engineering (CSE). But the truth is, they are different, although they both are study of computer and computer system.

PROGRAMS OFFERED:

DMLT / OT / X-Ray / CMS & ED / Physiotherapy /
Mediical Lab Technician / Dental Hygine / MRI Technician /
Dialysis Technician / Optometry and Contract Ien Technician / Mediical Assistance

There are **11 courses** which belong to Medical and which a person is eligible to pursue after 12th, Graduation, Post Graduation. They can get admission in all the affiliated **State Paramedical Faculty**.

Diploma programs and certificate programs are actually very similar when we comes to duration. Also, both prepares the students with foundational skills and also the knowledge desired by employers looking to hire in the entry-level position for health care setting.

Completion of a diploma or certificate program will actually demonstrate to employers the mastery of the skills they have. Most importantly, the candidates with a diploma will possess the knowledge desired by the employers for a specific position. In some cases, it is seen that the certificate program serves a dual purpose because it actually prepares students for performing in a position that is well as to pass like a certification exam.
